

## Confidentiality and Use of Data

In line with EU GDPR law, all application data has been treated as confidential throughout the judging and shortlisting process by everyone involved.

## Conflict of Interest

All applications are anonymised for the judging process and judges take conflict of interest very seriously to ensure the integrity of the process, including signing relevant agreements. If judges recognise an applicant, they are required to state any conflict of interest immediately. Any judge disclosing a conflict of interest is excluded from assessing the specific application and scores are provided by other members of the judging panel only.

### **MATTHEW LODGE**

#### **Ambassador of the United Kingdom of Great Britain and Northern Ireland**

His Majesty's Ambassador Matthew Lodge received his appointment to the Hellenic Republic in August 2021. Matthew has a BA (Hons) in Modern Languages (French and Russian) from the University of Birmingham. He was an officer in the Royal Marines from 1986–1996. He joined the Foreign and Commonwealth Office in 1996. Matthew's first posting was to the British Embassy in Athens. He also worked on the Balkans, served in Georgia and Armenia, and had postings to Paris and the UK Permanent Representation to the EU. He later served as Private Secretary to the Permanent Under Secretary and Head of the Diplomatic Service, Deputy Head of Mission at the British Embassy Baghdad, Head of the FCO's Afghanistan Group, Her Majesty's Ambassador to Finland, Her Majesty's Ambassador to the State of Kuwait, and Minister at the British Embassy Paris, serving concurrently as Ambassador and Permanent Delegate to UNESCO. Matthew is married to Alexia and they have twin boys.

## **ANASTASIA ANDRITSOU**

**Director | British Council Greece and Cyprus**

Anastasia Andritsou is Director British Council Greece and Cyprus, contributing to the education policy agenda in the European region, developing an innovative and forward-thinking skills agenda for youth and underprivileged communities, and strengthening strategic collaborations between the UK, Greece and Cyprus. She has over 20 years' experience in education reforms, management of technical assistance programmes, EU and structural funds, and business development in the non-for-profit sector. She has private sector experience in telecommunications and smart automation technologies. She joined the British Council in 2004 as a Science and Governance Manager and implemented a major science communication programme for general audiences and schools. In 2007, she was appointed Head of Partnerships and Programmes, with responsibility for planning and implementing innovative science, arts and education projects through strategic co-operation with partners in Europe and across the world. She studied Electrical Engineering at the National Technical University of Athens, holds a master's degree from the Polytechnic School of Toulouse in France and an Executive MBA from the Athens University of Economics and Business.

## **GIANNIS ANASTASOPOULOS**

**Upper Education Sector Lead, Greece, Cyprus, Malta and Adriatics | Microsoft Europe South**

Giannis Anastasopoulos is a Graduate of the National and Kapodistrian University of Athens, holding a Bachelor of Science in Mathematics with a specialisation in Applied Mathematics and Computer Science, as well as a Master of Science in Quality Management and Technology. Early career experience includes roles as a Systems and Data Engineer, Digital Security and Quality Assurance Officer within IT and technology companies, with responsibilities spanning engineering, technical management and business administration, and a focus on emerging technologies and innovative solutions. For a decade, he served as a Microsoft Certified Trainer (MCT), delivering technical adult education and professional certification programmes for IT specialists. Over the past five years, he has been part of Microsoft, initially as an Account Technology Strategist in the public and education sectors and currently as Lead for the upper education sector across Greece, Cyprus, Malta and the Adriatic region within Microsoft Europe South. The principal ambition remains the advancement of innovation, artificial intelligence and cloud computing, fostering their integration into the evolving landscape of educational, academic and research institutions.
